Notice:- 2 is prompt ko सबसे last mai. Paste karna jitna bar video generate karoge last आपको yeh prompt dal dena h

Ultra realistic, natural human motion, realistic facial expressions, no AI look, no face distortion, no identity change, no extra fingers, no flickering, no cartoon style.

"Video prompt start "

SCENE 1 – Hero Entry (5s)

Use my uploaded face image and my uploaded white BMW as reference. Keep my face, hairstyle, beard, skin tone, body proportions, and the BMW exactly the same.

A quiet luxury street at night with warm street lights and large trees. My white BMW is parked facing the camera. I walk slowly toward the front of the BMW wearing an all-black outfit, white sneakers, and dark sunglasses. I stop beside the front bumper with both hands in my pockets and look down confidently. The camera slowly pushes in from a low angle with subtle handheld movement. Strong cinematic bokeh, realistic reflections on the BMW, Sony FX3, 85mm lens, 24fps, premium luxury automotive commercial.

SCENE 2 – Bonnet Pose + Hair (5s)

Use the same face and the same white BMW.

I sit naturally on the front bonnet of the BMW. My body is relaxed. I slowly run one hand through my hair while looking down, then slowly look toward the camera with a calm confident expression. Very natural movement, no overacting. Static camera with a slow cinematic push-in. Warm street lights, realistic reflections, creamy background bokeh, Sony FX3, shallow depth of field, luxury commercial.

 SCENE 3 – Door Open + Exit (5s)

Use the same face and the same white BMW.

I open the driver's door naturally and step out slowly. I gently close the door and adjust my black shirt sleeve while standing beside the car. The camera follows with a slow side tracking movement. Realistic walking, natural cloth movement, soft street lights, cinematic night atmosphere, premium automotive advertisement, Sony FX3, 85mm lens.

 SCENE 4 – Driving Interior (5s)

Use the same face and the same white BMW.

Interior night shot from the passenger seat. My left hand is on the steering wheel while I drive calmly through a city street at night. Street lights reflect across the dashboard and windshield.

I glance at the road with a confident expression. Natural steering movement, realistic dashboard lighting, shallow depth of field, cinematic handheld camera, Sony FX3, luxury commercial.

 SCENE 5 – Driving Exterior (5s)

Use the same face and the same white BMW.

The white BMW drives slowly along a quiet tree-lined road at night. The camera tracks beside the moving car with smooth cinematic motion. Warm street lights reflect beautifully on the glossy paint. I am visible through the driver's window. Authentic road movement, realistic wheel rotation, premium automotive commercial, Sony FX3, 85mm lens.

 SCENE 6 – Final Hero Shot (5s)

Use the same face and the same white BMW.

The BMW stops under warm street lights. I step out, lean casually against the front fender with folded arms, and look directly into the camera with a calm, confident expression. The camera slowly pulls back into a wide hero shot. Strong cinematic bokeh, natural night lighting, realistic reflections, luxury BMW commercial, Sony FX3, 24fps.

♥ Thank you ♥
